- Session 2 - Dental Cranial Connection
- Session 3 - Quantum Nutrition
- Session 4 - Comprehensive Evaluation

14 CEUs/session

First Annual Residency Program

"Where Alternatives Are Conventional"™

Learn how to diagnose and treat dental issues which account for 70% to 90% of all medical problems!

Residency Program...

This Residency Program is designed to teach a comprehensive approach to defining the patient's core issues. A multidimensional paradigm now enables practitioners to view patient complaints from an integrated knowledge base rather than focusing on just symptoms. This Residency Program will bullet proof you and your practice from becoming obsolete in a rapidly changing health care industry.

What The Experts Are Saying...

"I love the fact that Dr. Smith teaches from a common sense point of view. I find that the simplest answer is usually the right answer, and Dr. Smith has spent his life refining difficult treatment modalities down to easily understood, easily taught concepts. From my own years of study, I can truthfully say that I am in awe of the incredible amount of information I brought home from his other workshops. Dr. Smith is dead on in his diagnostic approach and treatment delivery."

Mark Warden D.D.S.

Specializing in Integrative Dentistry

Live Patient Evaluations...

Attending doctors can submit patient case histories and chief complaints for selection of "In-seminar" evaluation. Contact Dr. Smith's office for further details. Limit 3 patients per session.

Session Curriculum...

Session 1 - Dental Whole Body Connection

Learn the five key areas of dysfunction

- Defining Core Issues Using Quantum Energy Testing Techniques
- Live patient evaluations to enhance the learning experience

Session 2 - Dental Cranial Connection

- Defining cranial distortions
- Learn how to manually correct cranial lesions
- Live patient evaluations to enhance the learning experience

Session 3 - Quantum Nutrition

- Understanding the physiological effects of nutrients
- Learn how to accurately test and dose nutrients
- Understanding dental organ dysfunction and nutritional support
- Live patient evaluations to enhance the learning experience

Session 4 - Comprehensive Evaluation

- Learn how to diagnose uncommon causes of pain
- Learn how to conduct a comprehensive examination
- Live patient evaluations to enhance the learning experience

About Dr. Gerald H. Smith

Doctor Smith is a recognized international authority on craniomandibular somatic disorders with a focus on resolving chronic pain. He is the author of numerous articles on the ALF appliance and two landmark textbooks for professionals, *Cranial-Dental-Sacral Complex* and *Dental Orthogonal Radiographic Analysis*. He has also contributed equally important books: *Headaches Aren't Forever* and two recently published books, *Reversing Cancer* and *Alternative Treatments For Conquering Chronic Pain*. The latter is one of the first books integrating osteopathic, chiropractic, dental, physical therapy and nutritional concepts. Doctor Smith's forty years of clinical research has uncovered several of the major missing links that focus on the dental whole body connection regarding the treatment of cancer, chronic pain and somatic structural instability. Doctor Smith has lectured internationally on the ALF System and its benefits in dental orthopedics, orthodontics and resolving TMD and chronic pain. He is past-president and editor of the Holistic Dental Association, past president of the Pennsylvania Craniomandibular Society and recently was awarded the prestigious international Spectrum and Statuette awards (bestowed by The International Academy For Child Brain Development), Doctor of Natural Medicine degree and was invested as a Knight Hospitaller. He has a specialty practice in craniodontics, chronic pain and nutrition in Langhorne, Pennsylvania.
